Fecha: 07 de octubre de 2022

Dolores Hidalgo, C.I.N, Gto.

# Actividad 1.

The screenshot displays a Windows desktop environment during a web development activity. In the top-left corner, the XAMPP Control Panel v3.2.2 is open, showing the status of various modules. Apache and MySQL are running, while FileZilla, Mercury, and Tomcat are stopped. The log window shows the initialization process.

Visual Studio Code is open in the center, editing a file named 'hola.php'. The code is a simple PHP script that outputs a greeting and the user's name. The Explorer sidebar shows the file structure of a project named 'HELLO'.

A web browser window is open at the bottom, showing the output of the PHP script at the URL 'localhost/hello/php/hola.php'. The output is displayed in a monospace font: 'Hola a Todos', 'Bienvenidos al mundo de Php', and 'Soy Gil :3'.

The taskbar at the bottom shows various application icons, including the Start menu, search bar, and several open applications like File Explorer, Word, and the browser. The system clock indicates the time is 02:01 p.m. on 07/10/2022.
